RE: Comments on the Draft Work Plan for the Expanded Site Investigation Site
UXO-04, Knox t Trailer Park at the MCB Camp Lejeune, Located in
Jacksonville, NC
NC6170022580
Jacksonville, Onslow County, North Carolina

Dear Mr. Hood:

The NC Superfund Section has received and reviewed the Draft Work Plan for the Expanded Site Investigation of Site UXO-04, Knox Trailer Park located at the Knox Mobil Home Park located off NC Highway 24 at Camp Knox Road. The following comments are included for the Partnering Teams consideration.

General Comments

The Draft Expanded Site Investigation Work Plan appears to be in good order and discusses basic requirements and sampling that will be completed to confirm that this site is or is not contaminated with CERCLA waste or Munitions or Explosives of Concern (MEC). It is understood that an additional work plan will be required if hazardous waste or MEC are detected during this phase of the investigation work.

Specific Comments

1. The last sentence of the second paragraph discusses Level IV CLP criteria. CLP is defined here a characteristic leaching procedure. CLP in this context should be defined as Contract Laboratory Program. Please make appropriate corrections.
2. The Site access section of Appendix B, (i) references Figure 3-1 which is appropriately Knox Trailer Park. However, the text of the Site Access Section in Appendix B, (i) discusses access to the Hadnot Point Industrial Area and the New River Air Station rater than Knox Trailer Park. It is recommended that site access for this project discuss Knox Trailer Park access.
